24 June 1963

MEMORANDUM FOR: Chief, Special Security Center

SUBJECT : Personal Foreign Travel to Denied Areas

REFERENCE : USIB Security Committee Memorandum of 1 March 1963

1. It is understood that your Center is presently in the process of revising the Secrecy Agreements used on the various projects. Your attention is invited to Section 7e of the referenced memorandum wherein it is stated ".... procedures for requiring approval for foreign travel should be included within the security or indoctrination form signed by the individuals."

2. Attached hereto are sample agreements that are currently being used by OSA on government and contractor personnel. A sentence has been typed on to the agreement which serves the purpose required in referenced memorandum. Accordingly, it is requested that when the forms are revised they contain the sentence referred to. In that denied areas change more often than do Secrecy Agreements, it is considered more appropriate merely to list the words 'denied areas' and then define them during the security briefing rather than attempt to identify the current (June 1963) denied areas.
